RE: Mining operations on ML-27374.

Dear Ms. Eldredge:

A field inspection of this State section on September 18, 1979, indicated that mineral exploration had taken place at this site. Since such operations are not allowed under the terms of your State lease, the Division considered this disturbance to be part of a mining operation.

You are required under the Mined Land Reclamation Act, Title 40-8 et. seq., U.C.A. to file a mining and reclamation plan, receive approval and post a bond before proceeding further with operations.

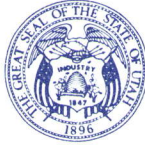

Failure to comply within 30 days will result in a hearing before the Board of Oil, Gas and Mining concerning this matter. Please contact me should you have any questions.

Sincerely,

MARY ANN WRIGHT
